

## MILLWRIGHT APPRENTICE MINIMAL TOOL LIST

- All tools must be brought to each class for inspection and check-off by the instructor
- Students that fail to have the required tools will be disciplined, in accordance with the millwright rules and regulations, which may result in having an upgrade withheld until the tool requirements are met.
- No power tools are to be bought by members, including battery operated tools.
- All tools should be good quality and made in America, and a list provided to the contractor
- SOME JOBS MAY REQUIRE METRIC TOOLS LIKE WRENCHES, ALLEN WRENCHES AND SOCKET SETS
- RULE OF THUMB: If you NEED to borrow someone's tool today, you SHOULD purchase it for tomorrow
